

# FORAGE SORGHUM

## HYBRIDS THAT

# ENHANCES OUR

## MEAT AND NOURISHES OUR MILK

Nuseed acknowledges that what we feed our livestock and how we nurture our land must be clean and green and for the good of all. That's why we thoroughly test our hybrids in both cutting and grazing trials so that they do what we say – perform!

Forage Sorghum								
Hybrid	Type	Suitability	Maturity	Vigour	Tillering	Regrowth	Drymatter	Prussic Acid
Lush	Sorghum x Sudan	Grazing/Hay	Medium-Early	Very good	High	Vigorous	Very good	Medium-Low
BMR Revolution	BMR Sorghum x BMR Sudan	Grazing/Hay	Medium-Early	Excellent	Prolific	Vigorous	Very good	Medium-Low
Nudan	Sudan x Sudan	Grazing/Hay/Silage	Medium-Late	Excellent	Prolific	Vigorous	Very good	Medium-Low
Hunnigreen	Sweet Sorghum	Grazing/Hay/Silage	Ultra late	Very good	High	Medium	Excellent	Medium-Low
