

HyTtec® Trophy

Your mid-season TT champ

HyTtec® Trophy is the first release of a new breed of hybrid TT Canola from Nuseed, your TT specialists.

If you're looking for a proven performer, **HyTtec® Trophy** has form in the field.

HyTtec® Trophy is an early-mid maturing canola which has shown exceptional yield performance against both current hybrid and open-pollinated TT varieties. In National Variety Trials across Australia in 2017, **HyTtec® Trophy** was the highest yielding in mid-season triazine tolerant trials.

HyTtec® Trophy combines hybrid seed traits such as strong early vigour, a strengthened disease resistance package, superior yield performance and the value of the Triazine Tolerant herbicide system.

HyTtec® Trophy gives you confidence when choosing a new breed of hybrid TT canola.

An EPR (End Point Royalty) of \$10 per tonne (ex GST) applies to **HyTtec® Trophy**

Key Points

- Top of the table yield performance for superior returns
- Strong early vigour driving better establishment and resilience
- Highly adaptable to a range of growing environments
