

# HyTTec® Trident

Your next big hybrid TT partner

You now have even more choice with HyTTec, an expanded offering taking the yield gap to fresh heights.

**HyTTec® Trident** is an early maturing variety which has performed significantly above current hybrid and open-pollinated TT varieties in both NVT and internal trials. **HyTTec Trident** was in the ground in 2017 and 2018 National Variety Trials and Nuseed's grower-based Crop Agronomy Trials (CATs) across Australia in 2018 and will also be demonstrated in 2019.

**HyTTec Trident** will be commercially available for sale and planting in 2020.

An EPR (End Point Royalty) of \$10 per tonne (ex GST) applies to **HyTTec Trident**.

## Key Points

- Your yield gap just got bigger – HyTTec Trident significantly outperforms similar varieties across a range of yield environments
- Especially strong in growing environments suited to early maturing canola
- The ideal combination of early get-up-and-go and herbicide tolerance for superior paddock clean-up
- Premium disease package, rated R for Blackleg resistance
- Available under an End Point Royalty to reduce your upfront cost

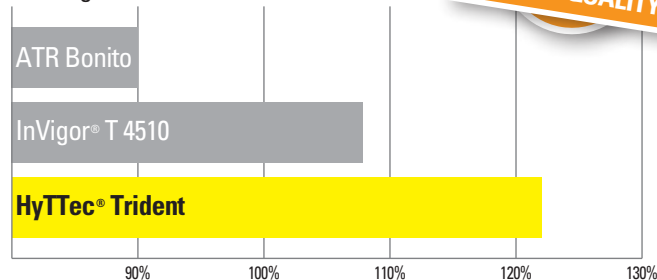

## Description

Development Code	NCH15T103
Bag size	20kg
End Point Royalty	\$10 per tonne (ex GST)
Maturity	Early (3)
Type	F1 Hybrid
Blackleg rating*	R
Blackleg group	ABDF
Height	Medium-Tall
Alternate To	ATR Bonito, InVigor® T 4510
Recommended growing areas	NSW, VIC, SA, WA

\*2019 Blackleg rating bare

## NVT Data

Average Variety Trial Yield Against Average Trial Yield Mean

35 National NVT trials with all varieties represented, with an average trial mean yield of 1.69MT/HA (2017- 2018). Information based on data available as at 14/03/2019.

## Variety Comparison

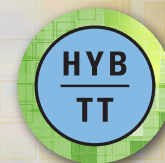

Variety	ATR Bonito	InVigor® T 4510	HyTTec® Trident
Type	OP	Hybrid	Hybrid
Blackleg Rating*	MS	MR-MS	R
Oil Average (%)	43.25	41.72	42.85
Yield Average (MT/HA)	1.52	1.83	2.07
Yield % of Trial Mean	90%	108%	122%

35 National NVT trials with all varieties represented, with an average trial mean yield of 1.69MT/HA (2017- 2018). Information based on data available as at 14/03/2019. For the most up-to-date NVT Data in your region please contact your local Nuseed representative today.
