

CAMARO 2

Camaro 2 is a high-yield, performance hybrid that has been engineered for low management input systems. The variety has been bred with a more extensive root and stalk structure along with enhanced disease resistance to help it withstand high wind and poor weather sites.

Key Features

- Mid-late maturity, linoleic type
- High yielding, Clearfield[®] hybrid
- Resistant to multiple races of downy mildew
- Improved sclerotinia head rot tolerance
